Code Of Conduct

This Code of Conduct outlines the principles and expectations for all team members to adopt a productive, respectful, and collaborative working environment throughout the project.

1. Respect and Inclusivity

- Treat all team members with respect and value their contributions.
- Avoid discrimination, harassment, or offensive behaviour, ensuring an inclusive environment for everyone.
- Communicate openly and listen to others' ideas without judgment.

2. Accountability

- Take ownership of your assigned tasks and deliver them within the agreed timelines.
- Inform the team immediately if you encounter any issues or delays.
- Commit to active participation in meetings, discussions, and decision-making processes.

3. Collaboration

- Work collaboratively and support one another in achieving the project goals.
- Share knowledge and skills to help the team grow collectively.
- Resolve conflicts constructively and focus on solutions rather than blame.

4. Quality and Ethics

- Adhere to ethical standards in writing, coding, and testing to ensure quality deliverables.
- Ensure that all contributions are original and free from plagiarism.
- Maintain the security and privacy of any data used in the project.

(cont.)

5. Communication

- Be clear, concise, and professional in all forms of communication.
- Use agreed communication channels (e.g., email, WhatsApp) for team discussions.
- Attend scheduled meetings and be prepared to provide updates on your work.

6. Commitment

- Follow the project timeline, respecting deadlines and milestones.
- Contribute actively during sprints and complete assigned tasks with dedication.

7. Conflict Resolution

- Address disagreements respectfully and directly with the involved parties.
- Seek assistance from the team or lecturer if conflicts cannot be resolved internally.

Agreement

By participating in this project, all team members agree to abide by this Code of Conduct and contribute positively to the team's success.

Project Description

The focus of this project is recipe swaps; this is where people are able to exchange recipes, cooking tips and techniques with others. This system encourages people to discover new foods and ingredients from, for example, different cultures and regions that they are unfamiliar with and gives them the opportunity to share their own recipes.

Recipe swapping allows opportunity for food lovers to connect and create a community with likeminded people that can celebrate their differences through food. Although everyone may have a different reason for participating, such as having dietary restrictions or just having culinary arts as a hobby, everyone can gain and share valuable information.

Along with the recipes, participants are encouraged to share any stories that may be attached to it, allowing for a more personal touch to each contribution.

Ethical Issues

1. Food allergies and safety

To ensure the user is not exposed to any health or safety risks, we will disclose the ingredients of all aligners, including items such as nuts and dairy. We will do this by providing clear details for every ingredient in each recipe and offering alternative options.

2. Nutritional Transparency

Users may seek healthy options or be curious about the nutritional content of each recipe. To assist with this, each recipe will include nutritional information at the top of the page, while the calorie count will be listed at the bottom for those who may not be interested.

3. Cultural Sensitivity and Appropriation

Users will receive information about each recipe's background to prevent misleading information, as understanding the history of food is important.

4. User Data Privacy

Ensuring the protection of user data, including personal information and browsing history, from unauthorized access or misuse. Establishing transparent privacy policies about data collection and third-party sharing.

5. Community and User Engagement Ethics

We will monitor users' comments and reviews to prevent hate speech, discrimination, or misinformation.

6. Copyright and Content Ownership

To safeguard against copyright infringement, we will ensure that all recipes and images are properly credited.

PERSONAS

Jennifer Smith

Food Blogger and Content Creator

Title: Miss

Based: Richmond, UK

Gender: Female

Occupation: Food Blogger & Content Creator

Age: 30

Monthly viewers: 27k+

GOALS

- Wants to share her recipes to a further range of people.
- Wants to find more inspiration for her blog.
- Wants to find a similar community.
- Wants to inspire people to use more sustainable practices.

DESCRIPTION

Jennifer is a full-time content creator who dedicates her social media presence to sharing her recipes and cooking new ones. She primarily posts on her food blog and has a loyal subscriber base. She also has platforms on Instagram and TikTok. In total, she has gained an average monthly viewing of over 27k.

FRUSTRATIONS

- Hard to find people within same content community.
- Wants to produce and promote more sustainable practices as food waste and recycling is an issue.
- Reaching a random audience on socials which don't direct her target viewers to her blog.

SCENARIO

Jennifer is currently looking for a fun way to promote and participate in more sustainable practices when it comes to her food content creation. She uses the recipe swap website to find out what she can do with the ingredients she currently has instead of ordering food or buying new ingredients.

She also wants to try new recipes whilst exchanging something to the community. She creates blog posts after trying a recipe swap and if she really enjoys the outcome, she leaves a review under the swappers profile.

She thinks it would be unique to have a fusion section in her blog and would like to explore such options. By using the filtering options on the website, she can find dishes from different specific cultures, such as 'Indian', and share her experience in her new blog section.

WISHES

- Collaborate with more food enthusiasts.
- Practice and promote more sustainable options.
- Try and share new recipes - have a fusion section of her blog.
- Reach a wider audience of like-minded individuals.

Carlos O'hara

Restaurant Owner and Chef

Title: Mr

Based: Brooklyn, New York

Gender: Male

Occupation: Restaurant Owner & Chef

Age: 43

Owns an Italian diner

GOALS

- Share his signature dishes with a wider range of cultures and communities.
- Expand his own culinary skills.
- Share his cultural dishes and promote his business.
- Connect with other authentic creators.

DESCRIPTION

Carlos is a locally well-known Italian restaurant owner who has been a chef for 8 years. He often creates new dishes to add to his menu and likes to share his expertise. He struggles to use technology at times if it requires him to do a lot of browsing and eye straining and he easily gets headaches.

FRUSTRATIONS

- Hard to find fully authentic recipes when he wants traditional dishes.
- Sometimes recipes lack full list of details ingredients and instructions. Takes a long time to find what he specifically is looking for. Gets headaches after awhile from eye strain.

SCENARIO

Carlos owns an authentic Italian restaurant but is looking for ways to expand his menu. He has tried looking online but it gives a bunch of different recipes so he wants to simplify his results to just Italian cuisines. The recipe swape website allows him to filter his search.

He wants to also promote and share his current recipes to a wider community so this website allows him to create his own profile and post his own recipes to swap.

He wants to make sure that he is able to view in depth instructions so the website has specified sections such as 'ingredients' and numerical steps to follow. He also wants to strain his eyes less so would use 'dark-mode'.

Carlos is able to increase the sharing of his recipes as others are able to leave reviews under his page so that it gains more traction and promotes his authenticity.

WISHES

- Wants to network with more people like himself.
- Wants to learn about more cultural foods.
- Wants to find ways to improve his current restaurant.
- Wants a time-efficient easy way to find the recipes.
- Dark-mode for easier use.

Stefan Ross

Culinary student, Aspiring Pastry Chef

Title: Mr

Based: Angers, France

Gender: Male

Occupation: Student

Age: 22

Wants to own his own patisserie one day

GOALS

- Expand his culinary skills.
- Learn more recipes and techniques to add to his portfolio.
- Network with more professionals and those in similar communities.
- Understand more futuristic and sustainable practices.

DESCRIPTION

Stefan is a full-time culinary student who goes to a prestigious culinary school in France. He dreams of becoming a pastry chef one day and opening his own sustainable patisserie. He wants to expand his skills and learn from industry professionals at any opportunity he gets.

FRUSTRATIONS

- Textbook learning is limited and he wants more practical experience to showcase. Hard to find authentic recipes. Culinary school can be wasteful with food so wants to find ways to utilise by-products.

SCENARIO

Stefan is following a recipe which requires him to only use the egg-whites of an egg leaving him with wasteful by-product. He uses the recipe swap website to find a recipe where he can use the remaining egg yolks in order to minimise food waste.

Stefan is trying to grow and expand his culinary skills as a student, to do this he uses the website to find professionals that have shared their recipes and expertise. He can also network with them as some of them can put their social media platforms in their profiles.

Stefan wants to share a new recipe of his own and gain some feedback from others who have tried it. He can use the website to gain reviews and useful feedback from others.

WISHES

- Networking with professionals in his aspiring industry and try their recipes.
- Expand his skills and learn from others.
- Share and receive feedback on his own recipes.
- Utilise by-products.

meetings

Project Name	Recipe Swap
Date and Time	27/01/25 16:00
Meeting Goal	<ul style="list-style-type: none"> • agree on code of conduct • choose group name • choose project
Facilitator	N/A
Note Taker	Aneeta
Attendees	Aneeta, Maahia, Shaiza, Sumana
Roundtable Updates	N/A
Discussion Points	<ul style="list-style-type: none"> • group name - we decided on NomNom • project selection - we chose recipe swap. reading through the list, we already had lots of ideas for the design and content • meeting days - we'll meet at least once a week to show each other what we've done and give feedback
Actions	<ul style="list-style-type: none"> • Project description refined – Aneeta • Code of Conduct – Sumana • Personas – Maahia • Ethical Issues – Shaiza • Meeting minutes – Aneeta • Create wireframe – all

meetings

Project Name	Recipe Swap
Date and Time	03/02/25 14:54
Meeting Goal	<ul style="list-style-type: none"> • discuss any updates
Facilitator	Aneeta
Note Taker	Aneeta
Attendees	Aneeta, Maahia, Shaiza, Sumana
Roundtable Updates	<ul style="list-style-type: none"> • Maahia – completed 2 personas • Sumana – completed code of conduct • Aneeta – completed project description • Shaiza – completed and uploaded ethical issues to GitHub
Discussion Points	<ul style="list-style-type: none"> • What we got done – we all managed to complete our designated tasks but some of us need to upload it to github. We set up the new repository and invited everyone as collaborators. Also discussed what should be on the Kanban board
Actions	<ul style="list-style-type: none"> • Upload any outstanding tasks to github – all • Complete Kanban board – all • Add all items into one pdf file – Aneeta • Set up docker environment – all • Upload document to Moodle - Shaiza
